About Us

Incorporated in the year **2006**, we, **Kailco International**, have established ourselves as eminent firms engaged in **manufacturing** and **supplying** a wide range of **Cooling Unit, Cold Room Unit, Water Chiller, Tube Heat Exchanger, Steam Radiators and many more**. The offered products are designed and manufactured with the help of our highly skilled and experienced team members in tune with the specifications detailed by our patrons. Offered products are highly demanded by our patrons for their sturdy construction, minimum maintenance, high performance, durability and easy usage. Apart from this, our clients can be availing these products at reasonable prices. Additionally, these offered products are used in various industries for cooling purpose. Supported by a group of highly experienced professionals, we have been able to operate our business process in a highly effective way. Our team of professionals is well-versed with top notch technology with utilizing the tools and modern machines. All offered products are manufactured in our sophisticated manufacturing facility in tune with the industry defined quality norms. Moreover, we have recruited highly experienced professionals who stringently examine offered products before prior dispatch to our clients. Additionally, our research and development personnel keep themselves updated with the developments prevailing in the industry. Supported by our well-qualified mentor **Mr....**
